This application seeking federal registration to operate in interstate commerce or as an intrastate operation has been approved.

As a "New Entrant," the FMCSA will continue to evaluate the safety management practices through a safety audit and monitor the on-road performance prior to granting motor carriers permanent registration. Motor carriers must maintain minimum safety standards and continue to comply with Federal Motor Carrier Safety Regulations (FMCSRs) and applicable Hazardous Materials Regulations (HMRs) in order to continue operating in interstate commerce during and after the 18-month period. Failure to comply with these requirements may result in the revocation of the USDOT Registration operating authority.

A follow-up letter will be mailed to all interstate commerce operations within a few days, explaining FMCSA Regulatory Registration requirements.
